Ali Akhmad Fauzie

Power Platform Solution Manager | Operation Lead | Process Improvement | Project Management
Federal Territory of Kuala Lumpur, Malaysia

Summary

An operations leader with more than six years of experience in business process outsourcing, I lead high-performance teams to elevate service delivery, consistently hitting over 98% SLA compliance.

My expertise lies in leveraging AI-powered solutions and automation tools to significantly boost workforce productivity and enhance service quality, exemplified by deploying systems that reduced manual work by 80% and achieved 90% data accuracy.

I've successfully expanded teams, growing one from 9 to 34 members, all while maintaining peak efficiency. My commitment to innovation drives projects that drastically reduce issue resolution times and handling efforts.

Experience

Meraki Malaysia

Power Platform Solution Manager
July 2025 - Present (1 year 1 month)
Malaysia

Drive organic business growth by identifying cross-selling and up-selling opportunities within existing client accounts, translating technical success into expanded project scopes and new service offerings.

Partner with executive stakeholders to identify high-impact business challenges, developing proposals and proof-of-concepts (POCs) that convert technical roadmaps into signed statements of work (SOWs).

Lead the end-to-end delivery of Microsoft Power Platform solutions for clients, aligning business needs with scalable, secure, and well-governed technical architectures.

Define Power Platform strategy, roadmap, and governance frameworks for client organizations, including best practices, security standards, and adoption guidelines.

Design and oversee solutions using Power Apps, Power Automate, Power BI, and Dataverse, ensuring enterprise-grade architecture and seamless integrations.

Manage and mentor cross-functional delivery teams (developers and consultants), handling capacity planning, task allocation, project scope, timelines, and budgets.

Establish and enforce Application Lifecycle Management (ALM) and DevOps practices, including environment strategy, solution packaging, source control, and CI/CD pipelines.

Provide technical leadership and hands-on guidance for complex implementations, integrations, and performance optimization, acting as an escalation point when needed.

Serve as a key client-facing technical lead, collaborating closely with stakeholders, sponsors, and partners to manage expectations, mitigate risks, and ensure successful outcomes

Concentrix

Team Leader. Operations

May 2023 - April 2025 (2 years)

Kuala Lumpur, Federal Territory of Kuala Lumpur, Malaysia

Leading operations and project-based initiatives to enhance service delivery, optimize workflows, and improve customer experience.
